

Rizal Hidayat Putra

JUNIOR DATA ANALYST | DATA SCIENCE | BUSINESS INTELLIGENCE

Bandung, Indonesia | +62 878-1724-0168 | rizal75hp@gmail.com
[LinkedIn](#) | [Tableau Public](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate (GPA 3.52/4.00) and Telkomsel Scholarship Awardee with hands-on experience in data analysis, business intelligence, machine learning, and deep learning. Proficient in Python, SQL, Excel, and Tableau, with experience building XGBoost forecasts with <5% MAPE, analyzing 1M+ retail transactions, and publishing hybrid CNN-GRU research in IEEE proceedings.

CORE SKILLS

Data Analysis: Python (Pandas, NumPy), SQL, Excel, data cleaning, EDA, RFM analysis | **BI:** Tableau, KPI dashboards, reporting, data visualization, geographic mapping
Machine Learning: XGBoost, Random Forest, K-Means, K-Medoids, DBSCAN, scikit-learn | **Deep Learning/NLP:** CNN, GRU, TensorFlow, TF-IDF, GloVe, FastText

PROFESSIONAL EXPERIENCE

Data Science Intern | PT Neural Technologies Indonesia | West Jakarta, Indonesia

June 2024 - August 2024

- Built KPI forecasting models using XGBoost on historical business data, achieving MAPE below 5% to support annual planning and performance analysis.
- Used K-Means, K-Medoids, DBSCAN, and Random Forest in Customer Satisfaction Index (CSI) analysis to identify and evaluate meaningful customer patterns.
- Developed interactive visualizations and regional maps of CSI clusters across Indonesia to support performance evaluation and targeted improvement strategies.

Roblox Game Developer | Independent | Bandung, Indonesia

June 2025 - Present

- Analyzed visits, session activity, likes, and player feedback to prioritize product updates across projects reaching 3M+ visits and 7,000+ likes.

SELECTED PROJECTS & RESEARCH

E-commerce Sales Performance Dashboard | Python, Pandas, Tableau

- Cleaned and analyzed 1,067,371 retail transactions and built four interactive Tableau dashboards covering executive KPIs, international markets, product performance, return risk, and customer segmentation.
- Calculated £19.39M in net revenue and used RFM analysis to show that Champions represented 23.83% of customers but contributed 69.78% of total customer value, supporting targeted retention and high-value customer strategies.

Suicide Detection on X - Hybrid CNN-GRU | Python, TensorFlow, NLP | IEEE ICITCOM 2025

- Developed a hybrid CNN-GRU model on 35,917 labeled tweets, combining CNN-based local text feature extraction with GRU-based sequential context modeling.
- Designed multi-source feature expansion and enhancement using TF-IDF, GloVe, and domain-specific FastText; achieved 93.87% accuracy after hyperparameter tuning, improving the 91.28% baseline by 2.59 percentage points.

EDUCATION

Telkom University | Bachelor of Computer Science (Informatics) | Bandung, Indonesia | 2021 - 2025 | GPA: 3.52/4.00

CERTIFICATIONS

TÜV Rheinland - Certified Big Data Analyst | Microsoft - Azure AI Fundamentals | PHP Specialist (2024)
Meta - Digital Marketing Associate | Certiport - Professional Communication | EPRT - Score 543 (CEFR B2)
